

The Development of Modern Harbors

Modern harbors play a crucial role in global trade. In the past, ports were simple docking areas where ships loaded and unloaded goods manually. However, with the growth of international commerce, harbors have transformed into highly complex logistical centers equipped with advanced technology.

One major development in modern harbors is containerization. Instead of loading goods individually, cargo is now packed into standardized containers. This system reduces loading time, minimizes damage, and improves efficiency. As a result, international shipping has become faster and more economical.

Automation has also significantly changed harbor operations. Many ports now use automated cranes and digital tracking systems to monitor cargo movement. These technologies not only increase productivity but also reduce human error.

Despite these improvements, modern harbors face challenges such as environmental concerns and increasing traffic congestion. Authorities are therefore investing in sustainable technologies and expanding infrastructure to meet growing demands.

1. The main idea of the passage is:
 - A. The history of ships
 - B. The development of modern harbors
 - C. Environmental pollution
 - D. Tourism growth
2. In the past, ports were described as:
 - A. Technologically advanced
 - B. Highly automated
 - C. Simple docking areas
 - D. Extremely efficient
3. The word “crucial” in paragraph 1 is closest in meaning to:
 - A. Minor
 - B. Essential
 - C. Optional
 - D. Temporary
4. Containerization helps to:
 - A. Increase manual labor
 - B. Reduce efficiency
 - C. Improve shipping efficiency
 - D. Eliminate trade
5. The word “This system” refers to:
 - A. Automation
 - B. Containerization
 - C. International trade
 - D. Manual loading

6. Automation reduces:
 - A. Productivity
 - B. Human error
 - C. Traffic
 - D. Fuel usage
7. Digital tracking systems are used to:
 - A. Train workers
 - B. Monitor cargo
 - C. Repair ships
 - D. Sell tickets
8. One challenge faced by modern harbors is:
 - A. Lack of ships
 - B. Environmental concerns
 - C. Decreasing trade
 - D. Low profit
9. Authorities are investing in:
 - A. Tourism centers
 - B. Hotels
 - C. Sustainable technologies
 - D. Fishing boats
10. The tone of the passage is:
 - A. Critical
 - B. Informative
 - C. Humorous
 - D. Emotional
11. The word “minimizes” is closest in meaning to:
 - A. Increases
 - B. Reduces
 - C. Eliminates
 - D. Doubles
12. According to the passage, containerization makes shipping:
 - A. Slower
 - B. More expensive
 - C. Faster and economical
 - D. Riskier
13. The passage suggests that traffic congestion is caused by:
 - A. Fewer ships
 - B. Growing demands
 - C. Automation
 - D. Manual labor
14. The paragraph organization mainly follows:
 - A. Problem–solution
 - B. Cause–effect
 - C. Historical to modern development
 - D. Comparison only

15. The word “equipped” is closest in meaning to:
- A. Supplied
 - B. Destroyed
 - C. Removed
 - D. Closed

Maritime Safety Regulations

Maritime safety regulations have evolved significantly over the past century. In the early days of commercial shipping, safety standards were minimal, and accidents were frequent. However, several major maritime disasters prompted governments to establish stricter international rules.

One of the most important developments was the creation of international conventions that standardized safety procedures. These agreements require ships to carry adequate life-saving equipment, conduct regular safety drills, and maintain proper communication systems.

Technological advancements have also contributed to safer maritime operations. Modern vessels are equipped with radar systems, satellite navigation, and automated warning devices. These innovations allow crews to detect potential hazards and respond more quickly.

Despite these improvements, human error remains a leading cause of maritime accidents. Fatigue, inadequate training, and miscommunication can all compromise safety. Consequently, many shipping companies now emphasize continuous training programs to reduce risks.

In recent years, environmental safety has become an additional focus of maritime regulations. Ships must comply with international standards designed to prevent oil spills and reduce air pollution. These measures aim not only to protect human life but also to preserve marine ecosystems.

16. The passage mainly discusses:
- A. Maritime tourism
 - B. Development of safety regulations
 - C. Ship design
 - D. Fishing industries
17. Early commercial shipping was characterized by:
- A. Strict safety standards
 - B. Frequent accidents
 - C. Advanced technology
 - D. International cooperation
18. The word “prompted” in paragraph 1 is closest in meaning to:
- A. Prevented
 - B. Caused
 - C. Delayed
 - D. Ignored
19. International conventions were created to:
- A. Increase ticket prices

- B. Standardize safety procedures
 - C. Reduce cargo size
 - D. Promote tourism
20. Ships are required to carry:
- A. Luxury cabins
 - B. Extra fuel
 - C. Life-saving equipment
 - D. Fishing tools
21. Radar systems help crews to:
- A. Cook food
 - B. Detect hazards
 - C. Sell tickets
 - D. Repair engines
22. Human error is described as:
- A. Rare
 - B. A minor issue
 - C. A leading cause of accidents
 - D. Eliminated
23. Fatigue may:
- A. Improve performance
 - B. Reduce safety
 - C. Increase speed
 - D. Lower fuel use
24. Companies emphasize training to:
- A. Reduce risks
 - B. Increase profit
 - C. Shorten trips
 - D. Replace technology
25. Environmental regulations aim to:
- A. Increase shipping
 - B. Protect marine ecosystems
 - C. Raise fares
 - D. Reduce tourism
26. The word “comply” is closest in meaning to:
- A. Ignore
 - B. Follow
 - C. Change
 - D. Challenge
27. The tone of the passage is:
- A. Informative
 - B. Critical
 - C. Emotional
 - D. Humorous
28. According to the passage, technological advancements have:
- A. Eliminated accidents
 - B. Increased human error

- C. Improved safety
 - D. Reduced training needs
29. The phrase “these measures” refers to:
- A. Training programs
 - B. Radar systems
 - C. Environmental standards
 - D. Shipping companies
30. The word “adequate” is closest in meaning to:
- A. Insufficient
 - B. Excessive
 - C. Sufficient
 - D. Expensive
31. The passage implies that early regulations were:
- A. Strict
 - B. Weak
 - C. Global
 - D. Modern
32. The paragraph structure mainly shows:
- A. Comparison
 - B. Chronological development
 - C. Narrative story
 - D. Debate
33. The focus of the last paragraph is:
- A. Human training
 - B. Environmental protection
 - C. Technology
 - D. Profits
34. The word “hazards” is closest in meaning to:
- A. Benefits
 - B. Dangers
 - C. Tools
 - D. Passengers
35. The author suggests that safety improvements are:
- A. Complete
 - B. Ongoing
 - C. Unnecessary
 - D. Expensive

The Economic Impact of Global Shipping

Global shipping plays a fundamental role in the world economy. Approximately 80 percent of international trade by volume is transported by sea. This extensive network of shipping routes connects producers and consumers across continents, enabling economic growth and market expansion.

Shipping is generally more cost-effective than air transportation, particularly for large quantities of goods. As a result, developing countries often rely heavily on maritime trade to export raw materials and import manufactured products.

However, fluctuations in fuel prices and geopolitical tensions can significantly affect shipping costs. When fuel prices rise, shipping companies may increase freight charges, which in turn can influence global market prices.

Technological innovation has helped mitigate some of these challenges. Modern vessels are designed to be more fuel-efficient, and digital logistics systems improve route planning. These advancements enhance efficiency and reduce operational expenses.

Nevertheless, global shipping remains vulnerable to economic downturns. During periods of recession, demand for goods declines, leading to reduced shipping activity. Consequently, the industry must continuously adapt to changing economic conditions.

36. The passage mainly discusses:
 - A. Air transportation
 - B. Global tourism
 - C. Economic impact of shipping
 - D. Environmental policy
37. About 80 percent of trade by volume is transported by:
 - A. Air
 - B. Land
 - C. Sea
 - D. Rail
38. Shipping is cost-effective especially for:
 - A. Small packages
 - B. Large quantities
 - C. Passengers
 - D. Luxury goods
39. Developing countries rely on maritime trade to:
 - A. Import only
 - B. Export and import
 - C. Reduce population
 - D. Promote tourism
40. Fuel price increases may:
 - A. Decrease freight charges
 - B. Increase shipping costs
 - C. Eliminate trade
 - D. Reduce fuel use
41. The word “mitigate” is closest in meaning to:
 - A. Worsen
 - B. Ignore
 - C. Reduce
 - D. Double

42. Modern vessels are designed to be:
- A. Larger only
 - B. More expensive
 - C. Fuel-efficient
 - D. Slower
43. Digital logistics systems help improve:
- A. Entertainment
 - B. Route planning
 - C. Cabin design
 - D. Tourism
44. During recessions, shipping activity:
- A. Increases
 - B. Remains stable
 - C. Declines
 - D. Doubles
45. The word “vulnerable” is closest in meaning to:
- A. Protected
 - B. Strong
 - C. Exposed
 - D. Permanent
46. The tone of the passage is:
- A. Informative
 - B. Humorous
 - C. Emotional
 - D. Critical
47. Geopolitical tensions can affect:
- A. Tourism
 - B. Fuel efficiency
 - C. Shipping costs
 - D. Weather
48. The phrase “these advancements” refers to:
- A. Economic downturns
 - B. Fuel prices
 - C. Technological innovations
 - D. Market prices
49. The author implies that the shipping industry must:
- A. Remain unchanged
 - B. Adapt continuously
 - C. Close routes
 - D. Reduce trade
50. The overall theme of Passage 3 is:
- A. Maritime law
 - B. Trade and economic influence of shipping
 - C. Environmental disasters
 - D. Ship design

ANSWER:

1. B
2. C
3. B
4. C
5. B
6. B
7. B
8. B
9. C
10. B
11. B
12. C
13. B
14. C
15. A
16. B
17. B
18. B
19. B
20. C
21. B
22. C
23. B
24. A
25. B
26. B
27. A
28. C
29. C
30. C
31. B
32. B
33. B
34. B
35. B
36. C
37. C
38. B
39. B
40. B
41. C
42. C
43. B
44. C

- 45. C
- 46. A
- 47. C
- 48. C
- 49. B
- 50. B
